Activity Title: **Performance Task:** Environmental Community Action Plan
Learning Target: To propose an environmental community action plan to combat Climate Change and Global Warming
To promote stewardship towards our Common Home
References: Merriam-Webster Dictionary
(Author, Title, Pages) J. J. V. Montañez, CVIF Learning Activities

Global Warming, as defined in Merriam-Webster Dictionary, is *"an increase in the Earth's atmospheric and oceanic temperatures widely predicted to occur due to an increase in the greenhouse effect resulting especially from pollution."* This phenomenon is due to the misuse and overuse of burning fossil fuels (e.g. coals, petroleum, and natural gas) which cause greenhouse gas emissions that envelope the Earth's ozone layer. Also due to this misusage, the Earth is experiencing the phenomenon called Climate Change, which is a significant and long-lasting change in the Earth's climate and weather patterns that led to the altering of seasons in most parts of the globe.

Pope Francis, in his encyclical letter *Laudato Si: On the Care of our Common Home,* is requesting everyone to become stewards of our Mother Earth which he calls our Common Home. On the said encyclical letter, Pope Francis reminds us that our common home is like a sister with whom we share our life, and a beautiful mother who opens her arms to embrace us, thus, we need to protect and value her.

As a good citizen of our society and in solidarity with the Catholic Church's call to care, protect, and preserve our Common Home, you are to propose an Environmental Community Action Plan to help combat Climate Change and Global Warming.

Instructions: (Use a long bond paper only.)

1. In a portrait orientation, draw your proposed sustainable long-term plan of action to combat the said phenomena of Global Warming and Climate Change.
2. Below your drawing, write a detailed explanation of your plan of action and a persuasive statement which calls everyone to help care, protect, and preserve our common home.

Rubrics for grading:

a) Appropriateness of the Proposed Plan = 40%
b) Comprehensive Presentation of the Proposed Plan = 40%
c) Neatness and Creativity = 10%
d) Punctuality = 10%
