We have already established our Plan and have already chosen our Social Concept. Now is the time to integrate all that you have done and make your final output which is the Info-Poster/Catalog. This is more like a scientific research poster (see sample image below) presenting what you learned from the virtual conference attended.

Again, you have to make sure that your info-poster/catalog should have the following contents: (a) the nature and scope of the social concept; (b) the social concept vis-à-vis the COVID-19 pandemic; and (c) the takeaway (main message) of the conference.

Here are few additional instructions for your info-poster/catalog:

1. Output size should be 8.5” by 13” (long size).
2. You can decide on the design and layout. You can base them on your chosen social concept.
3. Feel free to include diagrams or tables, pictures and drawings, or any visual presentations.
4. The texts should be handwritten, not printed.

Please be reminded of the following grading criteria:

- Content - 50 points
- Organization - 30 points
- Presentation and creativity - 20 points
