Our Culminating Activity shall be called **TIPIK: Significant Snippets of the Humanities and Social Sciences.** *Tipik* is a Cebuano term which means snippet, piece, or fragment – a small part of a whole. From the many concepts you have learned throughout your journey as a HUMSS student, you have to select one social concept which you are most interested in, or which is close to your heart. You have to expound this concept through a project, given this following scenario:

The Philippine Social Science Council conducted a virtual conference to promote and emphasize the importance of the social sciences in our society especially during a pandemic. You are a Representative of the School's student body who attended the conference. You are then tasked to share with the whole student body what you have learned from the conference by presenting an info-poster/catalog. The info-poster/catalog should contain **(1)** the nature and scope of the social concept, **(2)** the social concept vis-à-vis the COVID-19 pandemic, and **(3)** the takeaway (main message) of the conference. Your poster/catalog will be evaluated by all of your HUMSS subject instructors according to its Content (50 pts), Organization (30 pts), and Presentation and Creativity (20 pts).

(The date of submission of your output will be announced soon.)

Exercise: Answer the following questions briefly.

Off the top of your head (or without thinking too much), which social concept will you use for the Culminating Activity? Why?
