5. ***Amor Propio*** – It is a Spanish word which means "self-love." It refers to a sense of self-esteem or self-respect that prevents a person from swallowing his pride. A common form of amor propio is "pakipot" wherein an individual initially refuses an offer even if he really wants very much to accept it. Another example is when an employee refuses to help even if he needs assistance because he would not want his workmates to think he is incapable.
6. ***Bahala Na*** – It is derivative of the word *Bathala,* which refers to the ancient Supreme Being worshipped by Filipinos during the pre-Spanish Period. This phrase means leaving things in the hands of the Diving Being. *Bahala na* is one of the most widely used Filipino phrases which sometimes serves as a default answer when a person is unable to decide his next course of action or when he has no idea what will happen next.
7. ***Mañana Habit*** – Mañana means 'tomorrow' or 'specified future time.' The term mañana habit is used to indicate procrastination – the action of delaying or postponing something. It is also known as the "mamaya na" habit (or "I will do it later"). This trait is a sign of laziness, leaving a task pending and will greatly affect one's overall performance in work.
8. ***Crab Mentality*** – It is a way of thinking best described by the phrase "If I can't have it, neither can you." The metaphor refers to a bucket of crabs wherein instead of individually escaping from the bucket, they would rather try to race and grab each other which prevents any of them from getting out and ensures their collective downfall. Applied in business setting, an individual with crab mentality will attempt to negate or diminish the achievements of other members to halt their progress because of envy or vindictiveness.

Exercise:
Choose two Filipino values cited above and elaborate their effects to a business organization. Also, cite a specific example for each.
